SATURDAY, JULY 20, 1745.

Extract of a private Letter from the Hague, *dated* July 25, 1745.

'THE Diſpute about the De-
'tention of M. Belleiſle and
'his Brother, grows warmer
'every Day; and tho' the
'Partizans of France cry up
'the Pieces that have been
'publiſhed on his Side as un-
'anſwerable, yet the gene-
'rality of People here think
'the Engliſh Writer, who has
'taken the other Side of this Argument, has very well
'defended that Meaſure; and they are the more inclined
'to think ſo, becauſe, in the Anſwers given to it, the
'Applications are chiefly made to the Paſſions. It is,
'for Inſtance, ſaid, that this was the Meaſure of a fierce
'and over-bearing Miniſter; but what is this to the
'Meaſure itſelf? It might be a very good one for all
'that: It is ſuggeſted that it was a Hanoverian Meaſure;
'but if it be conſidered that M. Belleiſle could not be
'ſtopped but in the Place where he was, this falls to
'the Ground; ſince there is no Doubt, that if he had
'been ſet at Liberty, that would have been called a Ha-
'noverian Meaſure, and have been railed at immediately.
'Laſtly, The Cruelty of this Meaſure, with reſpect to
'the Britiſh Priſoners in Flanders, is ſtrongly dwelt
'upon; and yet, what is this but begging the Queſtion?
'For if the Meaſure was right in itſelf, it was right to
'take it: The Conſequences of a Thing cannot change
'its Nature; and therefore, tho' this may be a good
'Argument to ſhew that at this Juncture it may be
'right to ſet the Marſhal and his Brother at Liberty,
'yet it can never amount to a Proof that it was wrong
'to make them Priſoners. Thus it plainly appears that
'abundance of Paper has been blotted to beg the Que-
'ſtion, or miſ-ſtate the Queſtion, under Colour of re-
'ſolving it.

'The only Thing that looks like Argument in theſe
'voluminous Treatiſes, is what is ſuggeſted with re-
'gard to the publick Law of the Empire; and that,
'in few Words, and in plain Terms, is this; viz. That
'it is abſurd and ridiculous to ſuppoſe that any Prince
'or State of the German Empire, can have a Right to
'ſeize or detain the Perſon of one qualified with a Pub-
'lick Character from a Foreign Prince to the Emperor,
'who is the Head and Chief of the Empire. The Ab-
'ſurdity is ſuppoſed to riſe from the acknowledging a
'Power ſuperior in an Elector to that of the Emperor;
'which ſeems to be contradictory to common Senſe,
'and the Conſtitution of the Empire. By this Means,
'the ſeizing M. Belleiſle is not only made a Hanoverian
'Meaſure, but a Meaſure criminal in the Hanoverian
'Miniſtry; inaſmuch, as from this Chain of Reaſoning,
'it appears to have been directly repugnant to the Laws
'of the Empire.

'But what, if after all, this be no more than a So-
'phiſm, a playing with Words, and impoſing one Thing
'for another upon the unattentive Reader. The Maxim
'in the publick Law of the Empire referr'd to, con-
'ſiders only a Publick Miniſter, ſent to, and received
'by the Emperor, in the Name of himſelf, and of the
'Empire. The Superiority of the Emperor ariſes from
'his being the Chief of the Empire; that is to ſay,
'his Superiority conſiſts only in that Quality, and in
'ſuch Reſpects as concern him therein; for as to other
'Circumſtances, the publick Law of the Empire can-
'not reach them. The true Queſtion then is, Whether
'M. Belleiſle was an Ambaſſador to the Emperor and
'Empire? and the Queſtion is very eaſily anſwered in
'the Negative. If Proofs of this are demanded, the
'Court themſelves have furniſh'd the ſtrongeſt that
'can be: They ſay, he was ſent to *concert* with his
'Imperial Majeſty *the Operations of the enſuing Cam-*
'*paign*. But does not this plainly ſhew that they con-
'ſidered the Emperor and the Elector of Bavaria? Since
'it is certain, that as Emperor, or Head of the Em-
'pire, he was not engaged in War with any State
'whatever. Thus the Fallacy is plainly diſcover'd; and
'nothing can be more evident, than that the Whole of
'what they advance, is with a View to repreſent thoſe
'Meaſures which were fit, lawful, and juſt, in regard
'to the Elector of Bavaria, as unfit, unlawful, and un-
'juſt, by conſidering him as the Head of the Empire.
'But by making this eaſy, natural, and neceſſary Di-
'ſtinction, we clear ourſelves of the ſuppoſed Abſur-
'dity at once: For if the Emperor ſtill remained
'Elector of Bavaria, as all the World muſt agree he did,
'it might be very lawful to ſeize a Miniſter ſent to
'the Elector; and that he was ſent to the Elector,
'and not to the Emperor, appears plainly from his
'Commiſſion: For the Head of the German Empire
'having no War with any of his Neighbours, it was
'ſimply impoſſible that the Marſhal ſhould concert any
'Military Meaſures with him, in his Imperial Capacity,
'which could alone entitle him to the Privilege con-
'tended for.'

SCHWANBERG's LIQUID-SHELL,

To be DEFENDED UPON in the

GRAVEL *and* STONE.

THE Rev. Dr. HALES, and others, have demonſtrated by various Experiments, That the Virtues of Mrs. Stevens's Medicine for the GRAVEL and STONE, depend upon the SALTS of Lime in the Alicant Soap, and calcin'd Shells; but its enormous Doſe renders it ſo nauſeous, that it is almoſt impoſſible to take it in a manner ſufficient to anſwer any good End. This, then, will inform ſuch unhappy Perſons who are afflicted with the GRAVEL and STONE, That M. SCHWANBERG, a learned and ingenious Gentleman, well verſed in the moſt abſtruſe Operations of Chymiſtry, had a Method of Liquifying calcin'd Shells, ſo as to become limpid as Rock-water, yet not corroſive. They give almoſt immediate Relief in the moſt violent Pains of the GRAVEL; and, if duly perſiſted in, will, in time, bid fair for diſſolving a STONE in the Urinary Paſſages, when too large to paſs off otherwiſe. They may be depended on in the Wind-Colic, and all Kinds of Flatulences; and, where an *Alcali* is wanting, will anſwer the deſired End. A Child may take them in the Month, for Gripings, Fevers, and Uneaſineſſes, which Children are ſubject to, from Acidities, the known Cauſe of moſt of their Diſorders.

*** It is remarkable, That thoſe who take them for the STONE, have a Sediment in their Urine reſembling powdered Chalk: Now, that this Sediment is a Portion of the STONE diſſolv'd, is evident from an Experiment *in the Power of every one to make*; for, put an human STONE, form'd in the Urinary Paſſages, into a Vial of the LIQUID-SHELL, and it will gradually diſſolve into a White Powder, exactly reſembling that in the Urine of Perſons who take it as a Medicine for the STONE, and this in an Heat not greater than that of the Body, yet, at the ſame time, not in the leaſt affect an human Hair put therein; and, which ſurpriſingly will, upon the Affuſion of an Acid, be inſtantly converted into a Snow-white Powder.

To be had of the Proprietor W. Baker, *at his Houſe in* Helmet-Court, *near* Katherine-ſtreet *in the* Strand; *and, by his Appointment, of* R. Lee, *Stationer, under the Statuary's, facing* Serjeants-Inn *in* Fleet-ſtreet; *and of* John Newbery, *at the* Golden Ball *in* Caſtle-Alley, *near the* Royal Exchange, London; *or, at his Printing-Office in* Reading, *at* 12 s. 6 d. *the ſmall Vial.*

☞ The Doſe is from 10 Drops to 30; and not unpleaſant.

Concerning Gleets *and* Seminal Weakneſſes *of all Kinds.*

ALL judicious Phyſicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weakneſſes, whether occaſion'd by too ſevere purging for Venereal Injuries, violent Strains, Pollutio ſui, or any other Cauſe whatever; and that they are dangerous in their Conſequences, as well as difficult to cure, is as certain, ſince they exceedingly weaken the Generative Faculties, infeeble the whole Nervous Syſtem, often bring on Hectick Heats, a Tabes Dorſalis, or Conſumption of the Back, or an Atrophy or Nervous Conſumption, which frequently terminate in Death itſelf.

All ſuch, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effuſions, Involuntary Emiſſions, exceſſive Nocturnal Pollutions, or any Weakneſs of the Kidneys, Ureters, or Bladder, the Diabetis, Incontinency of Urine, or Difficulty of holding their Water, would doubtleſs be glad to meet with a certain, ſafe, and ſpeedy Cure, which they moſt aſſuredly may, by taking only a ſmall Quantity of a tranſcendent BALSAMICK STRICTIVE ELECTUARY, now publiſhed for a general Good, after having for many Years been experienc'd never once to fail perfectly curing the moſt Stubborn Gleets known in a few Days, without Difficulty or Trouble; as alſo all other Weakneſſes of the Back, Reins, Seminal Veſſels, and Urinary Paſſages, whichit almoſt inſtantly cures, bringing to rights and reſtoring all thoſe Parts and Paſſages to their natural Tone and priſtine Vigour, in a very extraordinary Manner, and by taking a few Doſes of it only.

This tranſcendent BALSAMICK RESTRICTIVE ELECTUARY is neither diſagreeable to take, nor occaſions the leaſt Diſorder, but is a wonderful Reſtorative in all Weakneſs and Decay of Conſtitution of any Kind, and particularly ſtrengthens the Back, Reins, Seminal and Urinary Veſſels to an immenſe Degree, inſomuch that in any Debility of them, one Doſe of it does more than ten of any other Remedy yet found out; all Perſons fatigu'd with Gleets or Seminal Weakneſſes of any Sort, or Weakneſſes of the Urinary Veſſels, who take it, will in three Days time find it ſo very effectual, that they will be moſt agreeably ſurpriſed at it.

When a Medicine will infallibly accompliſh ſuch a ſpeedy and perfect Cure of ſuch difficult Maladies, as Gleets and Seminal Weakneſſes are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain, too much cannot be ſaid in it, and All who ever took it for any of the above-mention'd Purpoſes have readily declared.

The Price is but 6 s. a Pot, altho' for its abſolute Effects one Pot alone being ſufficient in moſt Caſes to accompliſh a Cure, worth ten times as much, and by the Author's ſpecial Appointment, is to be had only at Mr. Rand's Toy-ſhop, at the Roſe and Crown againſt St. Clement's Church-Yard in the Strand, ready ſealed up, with a Book of Inſtructions, which whomſoever carefully reads will perfectly know, when the Gleet or Weakneſs he is afflicted with ſucceeds a Venereal Injury, whether all the Malignity of the Foul Diſeaſe is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balſamick Electuary.

LONDON: Printed for M. COOPER, at the *Globe in Pater-noſter Row.*
